

Decision Makers - Leadership

When your business advice saves the day—how will they thank you for delivering so many solutions with one decision?

The recommendation to prepare for a catastrophe that disrupts business operations is often surrounded by other concerns, many of them rendered ancillary by real-time disaster. Make the business case for an Asset Recording Services Proactive Inventory by clicking the link below and reading the article in the St. Pete Times November 16, 2007: Harsh Realities for property and casualty insurance trends:

Talk of the bay: Sink delivers message of harsh realities
