

Estate Planners

For an accurate accounting of estate chattel, and assistance coordinating certified appraisals of valuables, retain the services of Asset Recording Services to provide a comprehensive list and visual record.

No longer is it necessary to depend upon the owners, heirs or outside appraisers whose fees are calculated on a percentage of the appraised valuation to compile an accurate listing of estate chattel. Every item within the estate is cataloged by Asset Recording Services, an impartial third-party, which removes the possibility of misrepresentation or bias.

The complete inventory of estate chattel is reduced to detailed written descriptions of those items with model- and serial numbers and other descriptions paired with still image(s) and scanned receipts /certificates of valuation and provenance produced in bound color copies for distribution to interested parties. Should insured property of an estate suffer damage, or loss, the completed Inventory Manifest would serve as a comparison when submitting an insurance claim. When loss is due to theft, the proactive inventory service includes everything you need to provide the proper authorities with the information they need to help you recover your lost items. We provide a customized inventory which conforms to your project requirements.
